

Job title

Electrical Solutions and Service Technician

Job summary

Full Time position

Friendly & relaxed environment

A strong growth business

Center Irrigation is made up of a small group of very dedicated people that share the same dedication in delivering a high standard to service to our customers. We are a Strong Centre Pivot/ Lateral move irrigation supplier operating throughout Victoria and New South Wales. We also provide pumping solutions with the latest advanced technology and service.

We are seeking a keen dynamic person who is looking to enter the work force. This position would be well suited to someone studying electrical engineering or similar. The path this would take you is to offer the latest water solutions using technology, in pump control, system communications, GPS operations, Satellite telemetry use. You would be required to service and develop sales opportunities of this latest technology.

The successful applicant will be expected to:

- Have some technical experience with electrical fault finding
- Have some knowledge in GPS systems
- Have ability to multi task and great communication skills
- Understanding of advanced electrical, computer skills and radio communications
- Have strong work ethic, time management, use initiative and work unsupervised
- Current driver's license essential.
- Must have or be able to obtain a current passport as overseas training is required

Further opportunities for development with this growing business are likely. This position will be based in the Ballarat area with intended work area extending Victoria and Southern NSW. All applicants will be kept in strictest confidence.

Post applications attention "Business Manager" to Center Irrigation 4 Wilson Road Ascot 3364.

Or email to employment@pftagg.com.au Closing date for applications Friday 31st October.
